Our Story

PAGE - 02

Upvalued is a movement for sustainable luxury, transforming premium textile waste into stylish accessories and décor while aligning with the UN Sustainable Development Goals. Founded in Bengaluru in 2023, it collaborates with local artisans to create exclusive pieces, empowering communities with green skills for a healthier planet. Experience luxury, sustainability, and individuality with Upvalued—every choice matters.

Made from Waste

We turn premium upholstery scraps and dead stock into luxury items, saving over 3,000 kg of textile waste from landfills, offsetting nearly 49 years of an average Indian's carbon emissions.

One in a Million

At Upvalued, our exclusive products are crafted in small batches of 5 to 10, giving you something truly unique.

Redefining Luxury with Upcycling

We believe luxury should be sustainable. Using materials like velvet suede and vegan leather, we create stylish, carbon-negative products with impeccable craftsmanship in limited batches.

OUR KEY DIFFERENTIATORS

SUSTAINABLE

Supports your ESG goals for the environment through sustainable gifting.

ETHICAL

Aligns with your ESG initiatives to promote social responsibility.

LUXURY

Premium products suitable for clients, partners and prospect gifting.
